EQUIPMENT FOR
WAKEBOARDING

WAKEBOARD
FEATURES

THE FOLLOWING PROJECTS WERE DELIVERED AND FACILITIES CONSTRUCTED BY OUR COMPANY:

PROJECT «KLUCHEVOE OZERO»

PROJECT «MALAYA LODOGA»

30 km from St. Petersburg (2 winches with a set of wakeboard features and administrative building, restaurant and rooftop chillout zone designed by our company)

PROJECT «EKATERINKY»

A distinctive bi-level wakeboard park (the park is one-of-a-kind in Russia) with 3 winches of 104, 165 m and the showpiece - 246 m

PROJECT «EVPATORIA»

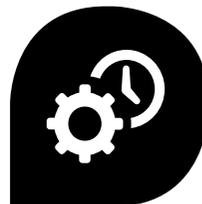

Crimea. A remarkable project! There will be an artificial lake on the black sea coast.

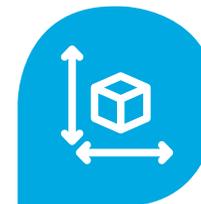

PROJECT MOSCOW 870 RED SQUARE WAKE

Our engineer participated in the installation of a unique wakeboard park.

PRIVATE PROVING GROUND

At the proving ground (Wake Park «Ekaterinki») we carried out tests of our installations, ensured close control and conducted thorough inspection after every 30 hours of testing. The total operating time was more than 500 hours for each of the 3 installations.

Extensive testing allowed us to find the optimal geometric shape of the wakeboard features as well as the materials for their manufacture.

OUR TEAM

designers
2 persons

engineers
2 persons

assembly team
5 persons

We have created a unique automation system that allows you to control the business by receiving progress reports as well as to analyze economic indicators online.

Our team have developed a unique winch control technology that allows to track the rider's location and automatically pick him up at the point of fall.

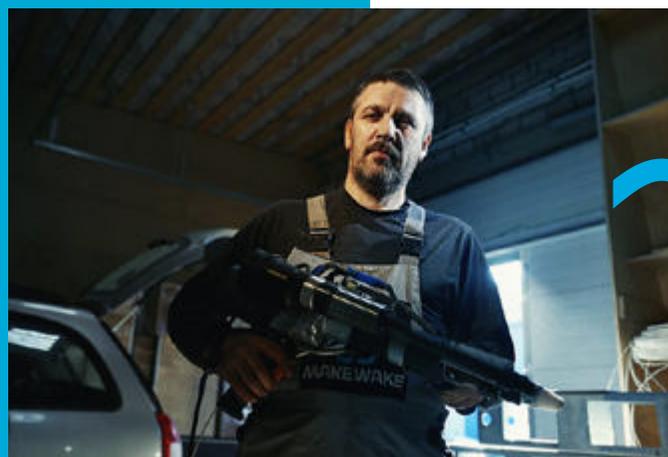

VENEER-SLICER

Large production shop allows to process large-scale orders and produce up to 3 pieces of equipment simultaneously.

WE MAKE UNUSUAL WAKEBOARD FEATURES

«LUTE» — LWH - 24/5/2 m
Plastic, HDP sheet 15 cm

WELDING EXTRUDER

Welds plastic
